Fig. 3

The image shows a graphical user interface for managing user settings. It features a window with three tabs: "General", "User rights", and "User profile". The "General" tab is currently selected. Below the tabs, there are three main sections:

- Password:** A text input field containing asterisks, indicating a masked password.
- Password confirmation:** Another text input field containing asterisks, for re-entering the password.
- Authorization level:** A horizontal slider control. The slider has a range from 0 to 5, with tick marks at each integer. A small square handle is positioned at the value 2. The slider itself is labeled with the number 102.

At the bottom of the window, there are three labels: 38, 100, and 30, which likely correspond to different components or elements of the interface.
